Data Studio

Veesus Arena4D
Installation Software & License Key

- **UNLIMITED POINT CLOUDS**

  A powerful point cloud engine allows you to work in real time on all data sets without constraint or compromise.

- **EDIT**

  Cut, copy, patch and paint your point cloud data. Register multiple clouds together.
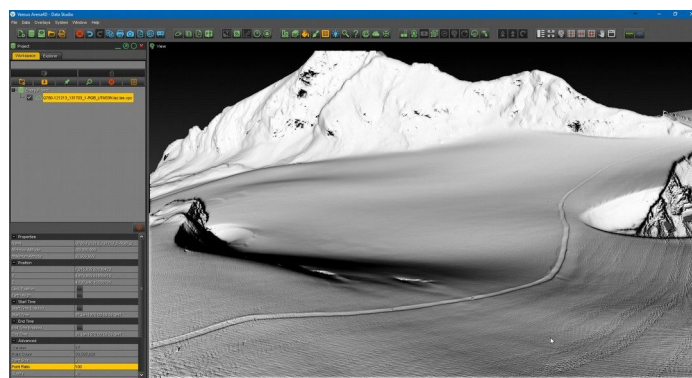

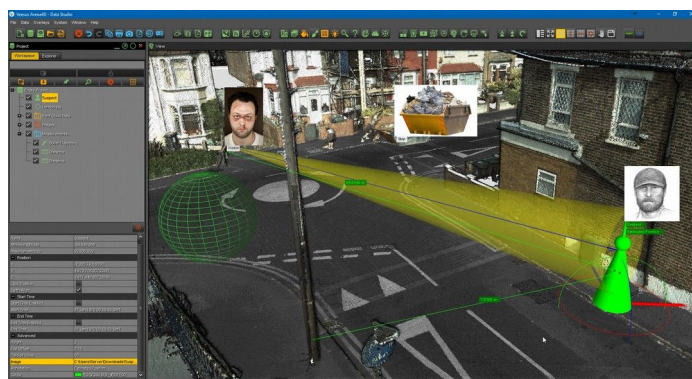

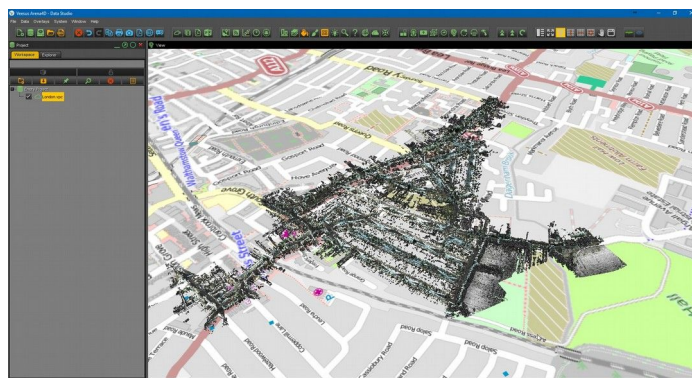

- **ANIMATE**

  Create professional quality complex animations of all your data, not just point clouds.

- **DELIVER**

  Share your data in high definition video, high resolution images or a full project within a simple executable.

- **CONTEXT**

  View all your different data types in a single application.

Arena4D Data Studio is a fully featured modular software package capable of displaying and editing all point cloud data sets on standard PC hardware. Available as a FREE Basic edition capable of rendering point clouds at high speed it can easily be extended as your needs rise.

Optional modules include best in sector technology from NCTech (iStar 360 HDR panoramic imaging and measurement) and Pointfuse (point cloud vectorisation).

System Requirements

OS - Microsoft Windows 7+, OSX

CPU - 2.0GHZ Dual Core

GPU - 1GB, OpenGL 2.0 Compliant

RAM - 2GB

HDD - 100MB (for installation)

For best performance we recommend a quad core processor, 8GB RAM an nVidia/AMD GPU and an SSD disk drive.
